 **DAS AUDIO**

KEY FEATURES

- 2-way system for outdoor installation
- CX finish (ISO-flex) for covered exposure
- IP54 ingress protection rating
- Single 6" loudspeaker
- 1" annular diaphragm M-26 compression driver
- Stainless steel hreaded fixing points for wall mounts
- Version with 100 W/100 V line transformer

DESCRIPTION

The WR-9606 is a two-way passive system with an IP56 rating, designed for permanent professional outdoor installations. It incorporates a 6" loudspeaker for low-frequency reproduction and a compression driver with a 1" annular diaphragm that provides defined high-frequency reproduction. Its ultra-compact enclosure, made of birch plywood, minimizes unwanted vibrations and helps reduce distortion while maintaining stable acoustic performance under demanding conditions. This model is available in black or white finishes to facilitate integration into different environments.

The WR Series is designed to offer high resistance and durability in permanent outdoor installations. All metal components of the system are made of stainless steel to ensure high corrosion resistance. The connectors feature protection against liquids and dust through hermetic sealing and include a drainage system that prevents water accumulation. The grilles incorporate a three-layer textile barrier composed of acoustic fabric, filtering foam and a hydrophobic mesh that blocks dust, dirt and moisture without affecting sonic performance. In addition, the WR Series is available in CX (Covered Exposure) versions for partially covered installations, and DX (Direct Exposure) versions designed for locations fully exposed to the elements.

All WR Series systems share these protection specifications. This model corresponds to the CX version, designed for covered exposure installations and protected by an ISO-Flex polyurea coating.

This model incorporates a multi-tap 100 / 70 V transformer, allowing integration into loudspeaker line audio distribution systems.

WR-9606-TCX

SPECIFICATIONS

Performance

Frequency Range (-10 dB)	76 Hz – 20 kHz
Horizontal Coverage (-6 dB)	90°
Vertical Coverage	60°
Transformer Taps 70 V	12.5 W - 25 W - 50 W - 100 W
Transformer Taps 100 V	25 W - 50 W - 100 W
RMS Power Handling	100 W
Peak Power Handling	400 W
On-axis Sensitivity 1W/1 m	92 dB SPL
Maximum Peak SPL at 1 m	117 dB
Recommended Amplifier	INTEGRAL-A402
	INTEGRAL-A404
	INTEGRAL-A1002
	INTEGRAL-A1004
	INTEGRAL-A1602
	INTEGRAL-A1604
	INTEGRAL-MA1004
Recommended Processor	INTEGRAL-MA1604
	INTEGRAL-MA1004
	INTEGRAL-M88

Connectors

Audio Input Connector	Covered Barrier Strip Terminals
Audio Output Connector	Covered Barrier Strip Terminals

WR-9606-TCX

Enclosure

Enclosure Construction	Birch Plywood
Enclosure Geometry	Trapezoidal
Rigging	M10 Rigging Points
Finish	ISO-flex Paint
Color	Black
IP Rating	IP56
Dimensions (H x W x D)	385 x 220 x 255 mm 15,2 x 8,7 x 10,0 in
Net Weight	9,0 kg (19,9 lb)

Components

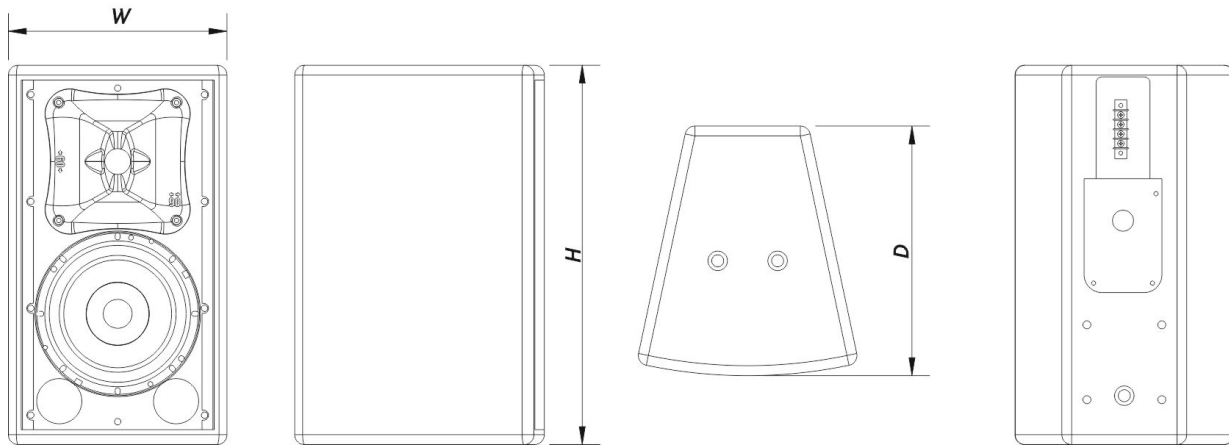

LF Driver	6B
HF Driver	M-26
Horn/Waveguide	BCT-96

Shipping

Shipping Weight	33,0 lb
