Updated (DD/MM/YYYY): 19/02/2025

KEY FEATURES

- Hi-power passive 2-way system
- 2000 W peak power handling
- 12" loudspeaker + M-28 compression driver
- Wide 90° coverage that fills the room
- Lightweight polypropylene enclosure
- Ergonomic handles and floor monitor position
- Integrated M8 rigging points

DESCRIPTION

ALTEA-712 is a passive system designed to deliver exceptional sound quality across a wide variety of applications, from PA systems at medium-sized events to stage monitors and fixed installations. ALTEA-712 can reproduce frequencies from 65 Hz to 20 kHz and delivers a maximum SPL of 131 dB, making it a system capable of adapting to any need.

The system features a powerful 12" transducer designed and manufactured by DAS Audio, which provides deep and powerful bass. For high frequencies, ALTEA-712 incorporates an M-28 compression driver with a 1" output, optimized by FEM analysis to offer brilliant performance and clear, balanced sound reproduction. The diffuser, designed to provide 90° x 60° dispersion, ensures wide and uniform sound distribution together with the other components.

Made of high-quality polypropylene, ALTEA-712 is an extremely rugged and relatively lightweight system, weighing only 16.5 kg (36.4 lb). Equipped with integrated ergonomic handles and M8 rigging points, this system is easy to transport and install, offering a practical and efficient solution for any sound setup.

ALTEA-712-WR-T100 is a variant designed for outdoor and harsh environments, incorporating enhanced components such as an INOX grille and screws, a triple-layer grille protection system and a protective cover for the speakON cable. In addition, it incorporates a high-quality integrated transformer for seamless integration with 100 V distributed audio systems commonly used in commercial installations. This combination of weather resistance and transformer functionality makes the ALTEA-712-WR-T100 a highly adaptable and reliable option for a variety of installation scenarios, offering uncompromising audio quality in a variety of conditions.

ALTEA-712-WR-T100

SPECIFICATIONS

Performance

Frequency Range (-10 dB)	65 Hz - 20 kHz
Horizontal Coverage (-6 dB)	90°
Vertical Coverage	60°
Nominal Impedance	8 ohms
RMS Power Handling	500 W
Peak Power Handling	2000 W
On-axis Sensitivity 1W/1 m	98 dB SPL
Maximum Peak SPL at 1 m	131 dB

Connectors

Audio Input Connector	1 x speakON NL4
Audio Output Connector	1 x speakON NL4

Enclosure

Enclosure Construction	Polypropylene
Enclosure Geometry	Trapezoidal
Rigging	M8 Rigging Points
Color	Black
Dimensions (H x W x D)	655 x 380 x 350 mm 25,8 x 15,0 x 13,8 in
Net Weight	16,5 kg (36,4 lb)
